

Installing the Engage Client on your Smart Phone (iPhone / iOS)

Overview

The Engage application is a web-based application. Unlike some apps on your phone, it can be installed without using the Apple App Store or Google Play Store. It's as simple as visiting a website and using your browser's built-in functionality.

Below are instructions for our support mobile platforms, Google's Android and Apple's iOS.

Instructions for Apple iPhone (Apple iOS)

How to Install Engage

1. Visit <https://poe.nutmegit.com/Engage/> from your mobile device's web browser, in this case it's Safari.

2. Click the "It's here" link or "Mobile App" from the top menu bar.

3. Once the login screen has loaded, login to the app.

4. Click the "Share" icon (Box with Up Arrow) located at the bottom of Safari
5. Choosing the "Add to Home Screen" option.

6. The Engage app will now appear on your phone's home screen.
